

CDT Programme Manager [Fixed Term]

Department of Earth Sciences

Closing Date: 10 November 2024

Reference: LB43488

CDT Programme Manager - for the CDT in the Application of Artificial Intelligence to the study of Environmental Risk [Fixed Term]

Overview and Role Purpose

Salary:

£40,521 - £54,395 pa

Contract:

Fixed-term until 30 September 2027 in the first instance.

Location:

Cambridge

Faculty / Department:

Department of Earth Sciences

Responsible to:

Business and Operations Manager

Working Pattern:

Full-time at 1FTE ,

The [AI for Environmental Risk \(AI4ER\) Centre for Doctoral Training \(CDT\)](#) is a multidisciplinary, interdepartmental Masters and PhD programme designed to train the next generation of future leaders to tackle global environmental challenges using AI. The CDT involves fifteen departments in the University and the British Antarctic Survey. The University departments are DAMTP, Archaeology & Anthropology, Architecture, Chemistry, Computer Science and Technology, Earth Sciences, Engineering, Geography, Land Economy, Plant Sciences, Pure Mathematics and Mathematical Statistics and Zoology along with the Laboratory for Scientific Computing and Cambridge Institute for Sustainability Leadership. The role holder will need to interact with graduate administrators and other relevant staff in each of these departments including the members of the CDT leadership team, the supervisors of individual students and the students themselves.

The CDT has funded 51 PhD students over the past 5 years. There are currently 48 students enrolled on the programme. All students have completed a Master's of Research in their first year before embarking on a 3 year PhD at the start of their second year at the University of Cambridge. This role will manage the programme.

The purpose of the role is to support and maintain the University's national and international reputation for excellence for training at the graduate level within the UKRI Centre for Doctoral Training for Artificial Intelligence for the Study of Environmental Risk (AI4ER). The post holder's role will include management, and delivery of the CDT programme, with high visibility both within the host department, the University, and beyond.

The role holder will bring significant expertise in the running of large scale programmes and responsibilities include communication with stake holders (students, industry partners, PIs, the public), organisation of events (e.g. the annual showcase, retreat, careers workshops, student symposium) and the organisation of new and existing materials for the programme (e.g. professional development and technical skills training, etc.).

The Department of Earth Sciences, including the Sedgwick Museum, is based on two main sites, one is on Downing Street in central Cambridge, the other is the Bullard Laboratories at Madingley Rise in West Cambridge. The role holder will be based at the Bullard Lab site.

Key Responsibilities

1. Delivery of the AI4ER CDT programme:

The role holder will be responsible for the delivery and profiling of the CDT programme, making effective contributions to organise training activities and to communicate with industry partners and academics.

Tasks include:

- Managing operations for the CDT to ensure effective and efficient delivery of administrative and teaching tasks
- Lead on the organisation of an established programme of training in transferable skills such as responsible research and innovation, sustainability development and entrepreneurial skills.
- Communication with industrial partners: day-to-day correspondence with existing partners, organising contractual details (in partnership with the HR and, if applicable, the Technology Transfer office), organisation of industry events such as topical workshops, industry lectures, etc.
- Organisation of CDT events, including Hackathons, Away Days, conferences, workshops, public engagement activities (e.g. participation at the Cambridge Science Festival, the Pint of Science events, etc.)
- Liaison with other initiatives. Within Cambridge this includes connection to other CDTs with shared interests, interaction with strategic networks and initiatives.
- Communication with PIs and students, providing feedback. Interfacing between the CDT and the University (e.g. liaison with Cambridge CDT hub managers, the Research Office, the Board of Graduate Studies, etc.)
- The post holder will respond to queries from the External Advisory Board and Steering groups of the CDT, and together with the Directors develop effective strategies to deliver a world leading programme.

2. Communication:

The post holder will maintain the current communication strategies to ensure that the visibility of the CDT and communication routes between stakeholders (CDT students, PIs, industry) remains prominent.

Tasks will include:

- Maintenance of a strong brand identity for the CDT that reflects the ethos, ambition, and diversity of our CDT. This includes interaction with the media, production of newsletters and corporate flyers that draw attention to the programme.
- Development of a programme for alumni of the CDT. Tracking destinations and careers and keeping in contact with leavers. Organisation of events that include alumni and maintenance of social network (e.g. Twitter /X and LinkedIn)
- Maintaining an active news channel for the CDT (e.g. via its social media feeds). Profiling major events within the CDT to the public and keeping the website up to date and dynamic.

3. Other Duties:

- May be member of departmental/faculty subject group, determining teaching requirements;
- May participate in relevant committees within department/faculty;
- May, on occasion, participate in school/University committees where appropriate and/or where invited.

Person Specification

Criteria	Essential or Desirable
Experience	
<ul style="list-style-type: none"> Demonstrated expertise in running and delivering large scale programmes, ideally in an academic setting. 	E
Skills	
<ul style="list-style-type: none"> Excellent time management and organisational skills; Demonstrable leadership and people management skills. This includes motivation of others and an ability to encourage commitment to learn in others; Excellent written and verbal communication skills. An ability to explain complex information to non-experts. The role holder may also need to provide feedback and advice to students on matters relating to module choices, minor matters of concerning discipline or grievances, or student concerns; Good computer, IT skills are essential, website development / maintenance skills would be advantageous. 	<p>E</p> <p>E</p> <p>E</p> <p>E/D</p>
Qualifications	
<ul style="list-style-type: none"> Qualified to PhD level. 	D
Additional requirements	
<ul style="list-style-type: none"> The role holder will be required to support occasional student activities taking place outside normal working hours. 	E

The Department of Earth Sciences

The Department undertakes research in the broad areas of Earth, Environment and Planetary Sciences. Cambridge Earth Sciences achieved the highest overall GPA in its UoA for the 2022 REF and it is one of the top ranked university Earth Science Departments in the world. We were listed top in the Complete University Guide Subject League Table 2022 for UK Geology and 4th in the QS world rankings for Earth & Marine Science 2021.

The Department occupies c. 9,000 sq m of space across the two sites, we employ c. 150 staff including 34 academic staff, 4 of whom are current Fellows of the Royal Society. We have an undergraduate community of approximately 250 and a graduate population of c. 80. The Department holds c. 100 research grants and the annual expenditure exceeds £12M.

Our position within Cambridge's uniquely integrated Natural Science Tripos teaching structure enables us to attract a significant number of biologists, physicists, chemists,

and mathematicians into Earth Sciences as undergraduates and as PhD students. We also attract excellent research students from other UK departments and institutions worldwide.

The Department sits within the School of the Physical Sciences (SPS), which encompasses the physical and mathematical sciences and geography. Three of our academic staff are appointed jointly with other Departments within SPS (with the Institute of Astronomy, the Department of Applied Mathematics and Theoretical Physics, and with the Department of Materials Science). We have strong multidisciplinary collaborations in research particularly through the interdisciplinary research centres which we were instrumental in setting up, notably the Institute for Energy and Environmental Flows (IEEF) with the partner Departments of Applied Mathematics and Theoretical Physics (DAMTP), Chemistry, Engineering, and Chemical Engineering.

The core mission of the Department is to place fundamental science at the heart of addressing present and future societal challenges. Our strategic vision is founded on the following guiding principles:

- **A vision for research** that pursues fundamental, curiosity-driven science leading to major breakthroughs in our understanding of the Earth and the Environment.
- **A vision for impact** that creates pathways to translate fundamental research into long-term societal and commercial benefit, identifies broad research priorities that are aligned with those of the UK government, research councils and stakeholders, and leads to growth and diversification of grant income.
- **World-class research infrastructure** through sustained investment in equipment and laboratories, enabling research activity to be maintained at the cutting edge.
- **Outstanding technical support and innovation**, with an emphasis on sustaining and developing expertise for the long term.
- **Well-funded postgraduate research programmes**, providing outstanding training to the next generation of scientists, and delivering sustainable growth in postgraduate numbers.
- **Attracting the best Earth and Environmental scientists** at all levels, ensuring we remain internationally competitive in the recruitment and retention of talent.
- **A supportive and collegiate work environment** that creates the time and space for academics to pursue world-leading research.
- **Commitment to the development and promotion of researchers** at all career stages through effective appraisal and mentoring systems.
- **Effective financial and administrative support**, allowing researchers to focus more of their time on delivering their science goals.
- **Promoting equality, diversity and inclusion** in all areas, and a commitment to support the physical and mental wellbeing of all our staff, postdocs, postgraduates and undergraduates.

Further general information about the Department of Earth Sciences and the University of Cambridge can be found on the websites: <http://www.esc.cam.ac.uk> & <http://www.cam.ac.uk>.

San Francisco Declaration on Research Assessment (DORA)

The University of Cambridge is a signatory of the San Francisco Declaration on Research Assessment (DORA). DORA recognises the need to improve the ways in which the outputs of scholarly research are evaluated. The University expects candidates to apply the principles of DORA when preparing their applications. We do not use journal-level metrics when assessing the quality of research outputs. Applicants should not include journal-level metrics, such as the Journal Impact Factor, anywhere in their application materials. More information about DORA, its principles and aims can be found at: <https://sfdora.org/> and <https://www.research-strategy.admin.cam.ac.uk/research-policy/DORA>.

The School

The Department is part of the University's School of the Physical Sciences which is one of six Schools making up the academic work of the University. It covers Astronomy, Chemistry, Earth Sciences, Geography, Materials Science and Metallurgy, Mathematics and Physics.

The School's aim is to contribute to our understanding of the physical world through excellence in observational, theoretical and experimental science and to extend quantitative, qualitative and combined methodologies to address problems in the fields of biology, technology, medicine, social science and the humanities. In pursuit of these goals, the School coordinates objectives in research, teaching, and infrastructure.

The role holder will contribute to the School's strategy for integrated and sustainable services/operations and will have the opportunity to contribute to School-wide developments through the management of projects or functional areas, where workload permits. They will develop and maintain constructive dialogue and communication with key contacts across the School and the wider University in order to best inform and enhance Departmental activities.

Athena SWAN

The Athena SWAN Charter was launched in June 2005 to recognise and reward commitment to advancing the careers of women working in higher education in science, technology, engineering, mathematics and medicine (STEMM). Although developed to address the lack of female representation in these subjects, the activities that support the Charter will contribute towards a more positive working environment for all. For more information on the history and principles of the Athena SWAN Charter please visit the Athena SWAN website.

The University of Cambridge was a founder member of Athena SWAN Charter and the University won its first award in the inaugural round of March 2006. Since then the University has successfully renewed its Bronze Athena SWAN award in 2009 and 2012 and in 2014 achieved a Silver Athena SWAN award. The School continues to support the Athena SWAN process across all subjects and the Department of Earth Sciences holds an award at Bronze level.

Terms of Appointment

Tenure and probation

The appointment will be made on a fixed-term basis until 30 September 2027 in the first instance, due to limited funding.

Appointments will be subject to satisfactory completion of a nine-month probationary period.

Hours of Work and Working Pattern

The appointment is full-time at 1FTE.

Pension

You will automatically be enrolled to become a member of USS (Universities Superannuation Scheme) – a hybrid pension scheme. For further information please visit: www.pensions.admin.cam.ac.uk

Annual leave

Full time employees are entitled to annual paid leave of 41 days inclusive of public holidays. For part-time employees, annual leave will be pro rata'd based on days worked.

General information

Pre-employment checks

Right to work in the UK

We have a legal responsibility to ensure that you have the

right to work in the UK before you can start working for us. If you do not have the right to work in the UK already, any offer of employment we make to you will be conditional upon you gaining it.

Health declaration

Once an offer of employment has been made the successful candidate will be required to complete a work health declaration form.

Qualifications

The person specification for this position lists qualifications that are essential and/or desirable. Please note that if you are offered the post you will be asked to provide your relevant original certificates of these qualifications.

References - offers of appointment will be subject to the receipt of satisfactory references.

Information if you have a disability

The University welcomes applications from individuals

with disabilities. We are committed to ensuring fair treatment throughout the recruitment process. We will make adjustments to enable applicants to compete to the best of their ability wherever it is reasonable to do so and, if successful, to assist them during their employment.

Information for disabled applicants is available at <http://www.admin.cam.ac.uk/office/s/hr/staff/disabled/>

We encourage you to declare any disability that you may have, and any reasonable adjustments that you may require, in the section provided for this purpose in the application form. This will enable us to accommodate your needs throughout the process as required. However, applicants and employees may declare a disability at any time.

If you prefer to discuss any special arrangements connected with a disability, please contact, the Department Administrator, who is responsible for recruitment to this position.

The University

The University of Cambridge is one of the world's oldest and most successful universities. We are a renowned centre for research, education, and scholarship that makes a significant contribution to society. The University is consistently ranked amongst the top universities in the world. Our affiliates have won more Nobel Prizes than any other University.

Our sustained pursuit of academic excellence is built on a long history of world-leading teaching and research within a distinctive collegiate system. For eight centuries our ideas and innovations have shaped the world. Our principal goal is to remain one of the world's leading universities in an increasingly competitive global higher education sector. Today the University of Cambridge is at the centre of a cluster of over 4,300 businesses employing 58,000 people.

Our capital investment projects include academic and commercial growth at both the West Cambridge Innovation District, and the Biomedical Campus in the south of the city. Eddington, in North West Cambridge, is a mixed-use development including key worker housing for staff, a community centre and a new primary school, managed by the University. Through these projects, the University is deeply embedded in, and committed to serving, our local community. These are all conspicuous signs of a University that is not only adapting to new needs, but also anticipating the future.

Our mission is to contribute to society through the pursuit of education, learning, and research at the highest international levels of excellence. Our core values are:

- freedom of thought and expression; and
- freedom from discrimination.

About Us

The University is one of the world's leading academic centres. It comprises 150 faculties and departments, together with a central administration and other institutions. Our institutions, museums and collections are a world-class resource for researchers, students and members of the public representing one of the country's highest concentrations of internationally important collections.

The University has an annual income of £2 billion. Research income, won competitively from the UK Research Councils, the European Union (EU), major charities and industry, exceeds £500 million per annum and continues to grow.

The Colleges and the University remain committed to admitting the best students regardless of their background and to investing considerable resources both in widening access and financial support. The 31 Colleges are self-governing, separate legal entities which appoint their own staff. Many academic staff are invited to join a College as a Teaching Fellow, which provides a further social and intellectual dimension. The Colleges admit undergraduate students, provide student accommodation and pastoral support and deliver small group teaching for undergraduates.

The University awards degrees and its faculties and departments provide lectures and seminars for students and determine the syllabi for teaching.

Our instinct for seeking out excellence and setting up enduring and mutually beneficial collaborations has led us to establish strategic partnerships across the globe. Whether it is the successful Cambridge-Africa Programme involving universities in Ghana, Uganda and elsewhere on the African continent; or the close association with the government of India to pursue new research in crop science; or the creation, with Germany's Max Planck Institutes, of a Cambridge-based centre for the study of ethics, human economy and social change – international partnerships are now an inextricable part of the University's make-up.

“Cambridge graduates and researchers have made – and continue to make – a colossal contribution to human knowledge and the understanding of the world around us. Their work touches on the lives and livelihoods of everyone from patients diagnosed with life-threatening diseases, to residents of areas critically affected by climate change, to children growing up in conflict zones. It has a lasting impact on our society, our economy and our culture: the world is truly a better place thanks to their efforts.”

Stephen Toope, Vice Chancellor 2019

Working at the University

Working at Cambridge you will join a diverse, talented and innovative community, with more than 23,000 students and over 16,000 staff from all walks of life and corners of the world.

The University continually explores strategies to attract and retain the best people. It is committed to supporting its staff to achieve their best. We are a fair, diverse and inclusive society and we believe our staff are our greatest asset. There is strong commitment to developing institutional leadership and supporting and encouraging staff development at all levels.

We offer a variety of roles including academic, research, professional, managerial and support roles. We also offer extensive benefits and excellent learning opportunities within a stimulating working environment.

The University's estate is undergoing the most significant transformation in its history. Cambridge has been able to create a science and technology campus to the west of the city centre, and is expanding further to the north west of Cambridge including investing in affordable homes for University key workers and community facilities. Even with our continued development, the University remains within walking or cycling distance across the campus. The University is a major partner on the Cambridge Biomedical Campus and we continue to redevelop our historic city centre sites demonstrating our determination to ensure that we can offer the best facilities and opportunities for our staff and students.

Equality & diversity

The University has built its excellence on the diversity of its staff and student community. We aim to be a leader in fostering equality and inclusion, and in promoting respect and a sense of belonging for all. We encourage applications from all sections of society. All appointments are made on the basis of merit. We have an Equal Opportunities Policy, along with a range of diversity groups, including the Women's Staff Network, Race Equality Network and LGBT+ Staff Network. More details are available here:

<http://www.equality.admin.cam.ac.uk/>

The University has a bronze Race Equality Charter award, with a framework for improving the representation, progression and success of minority ethnic staff and students within higher education. Furthermore, the University's silver Athena swan award recognises and celebrates good practice in recruiting, retaining and promoting gender equality.

Living in Cambridge

Cambridge is rich in cultural diversity. From beautiful University and College buildings, museums and art galleries, quaint gardens and punts on the River Cam, to a vibrant restaurant and café scene, our employees are surrounded by the wonderful features of this unique city.

You can find a wide-range of high street shops and 3 shopping centres, with independent alternatives at the historic market and nestled within the passageways in the city centre. You will find a cinema, bowling alley, a nightclub and various live performances at the Cambridge Leisure Park with further entertainment options at the Co Exchange, Arts Theatre and the ADC Theatre. Further information can be found on the Visit Cambridge website.

If you prefer the faster pace of life, London is a 45 minute train journey away. For those travelling from overseas, Stansted Airport is just 45 minutes away and Heathrow Airport under 2 hours away. The University is a short distance from a host of other attractions such as Ely Cathedral, Newmarket Races and various wildlife parks and stately homes. Cambridge is also within easy reach of the beautiful Broads and coastlines of Norfolk and Suffolk.

Relocation Support

The University recognises the importance of helping individuals to move and settle into a new area. We provide support and guidance to those relocating internationally or domestically to take up a post at the University of Cambridge, liaising with other University offices and selected partners to ensure comprehensive relocation support is available. This includes: accommodation, childcare, schools, banking, immigration and transport. If you would like further information, please visit <https://www.accommodation.cam.ac.uk/RelocationService/>. The Shared Equity Scheme and the Reimbursement of Relocation Expenses Scheme provide financial assistance to qualifying new members of staff with the costs of relocating to Cambridge.

Accommodation Service

The University Accommodation Service helps staff, students and visiting scholars who are affiliated to the University in their search for suitable accommodation in Cambridge. The dedicated accommodation team can provide access to a wide range of University-owned furnished and unfurnished properties, and has a database of private sector accommodation available for short and long-term lets. For further information and to register with this free service please visit <https://www.accommodation.cam.ac.uk/>

What Cambridge can offer

We offer a comprehensive reward package to attract, motivate and retain high performing staff at all levels and in all areas of work.

The University offers a wide range of competitive benefits, from family leave entitlement, to shopping and travel discount schemes. Our generous annual leave package contributes to the positive wellbeing of our University employees. Sabbatical leave enables academics to focus on research and scholarship, whilst still maintaining their full salary. The University also has a [career break scheme](#) for academic and academic-related staff, with additional flexible working policies for all other staff.

Pay and benefits

The University salary structure includes automatic service-related pay progression in many of its grades and an annual cost of living increase. In addition to this, employees are rewarded for outstanding contribution through a number of regular pay progression schemes. The University offers attractive pensions schemes for employees, with an additional benefit of a salary exchange arrangement providing tax and national insurance savings.

CAMbens employee benefits

The University offers employees a wide range of competitive benefits, known as CAMbens. CAMbens offers something for everyone across a range of categories, including:

- Financial Benefits, including shopping discounts (both local and national) and a Payroll Giving scheme;
- Relocation and Accommodation Benefits, including relocation assistance and interest-free Rental Deposit Loans;
- Travel Benefits, including Cycle to Work, discounts on train season tickets and interest-free Travel to Work loans;
- Family Friendly and Lifestyle Benefits, including support with childcare and family friendly policies;
- Health and Wellbeing Benefits, including a University Staff Counselling Service, discounts at the University Sports Centre, and other local gyms, and healthcare schemes.

What Cambridge can offer

Family-friendly policies

The University recognises the importance of supporting its staff. We have a range of family-friendly policies to aid employees' work-life balance including a generous maternity, adoption and shared parental leave entitlement of 18 weeks full pay, and paid emergency leave for parents and carers.

Other family-friendly support includes:

Our highly regarded workplace nurseries, a childcare salary exchange scheme and a high quality holiday Playscheme may be available to help support University employees with caring responsibilities (subject to demand and qualifying criteria). Further childcare information can be found here:

<https://www.childcare.admin.cam.ac.uk/>

The Newcomers and Visiting Scholars Group is an organisation within the University run by volunteers whose aim is to help newly arrived wives, husbands, partners and families of Visiting Scholars and members of the University to settle in Cambridge and give them an opportunity to meet local people. The Postdoc Academy supports the postdoctoral community within Cambridge. Further details are available here: <https://www.postdocacademy.cam.ac.uk/>

Your wellbeing

The University's Sport Centre, Counselling Services and Occupational Health are just some of the support services available to University employees to promote their physical and mental wellbeing. The University delivers The Festival of Wellbeing annually, which is a programme of stimulating talks and activities, which aim to promote wellbeing and good mental and physical health. The University also hosts the [Cambridge Festival](#), which is a great opportunity to get your first taste of public engagement, through volunteering, supporting hands-on activities or proposing a talk.

Development opportunities

We support new employees to settle in through various activities as well as supporting their professional and career development on an ongoing basis. Our Personal and Professional Development (PPD) team provide development opportunities for all University employees, including face-to-face sessions, online learning modules and webinars. All employees also have unlimited access to LinkedIn Learning to support their development. Both new and existing employees can undertake funded Apprenticeships, which lead to a range of vocational and professional qualifications. We offer reduced staff fees for University of Cambridge graduate courses and the opportunity to attend lectures and seminars held by University departments and institutions. A range of University training providers also offer specialist learning and development in their own areas e.g. teaching and learning, digital literacy, finance, health and wellbeing, safety.

How to apply

Applications should be submitted online via the University of Cambridge jobs page www.jobs.cam.ac.uk by clicking “Apply online” in the job advert. You will need an email address to register for our online system.

Conversations about flexible working are encouraged at the University of Cambridge. Please feel free to discuss flexibility prior to applying (using the contact information below) or at interview if your application is successful.

Informal enquiries should be directed to:

Dr Adriano Gualandi

email: ag2347@cam.ac.uk

If you have any queries regarding the application process please contact Amy Coussell, HR Coordinator, email:

ac687@cam.ac.uk

The closing date for applications is: **10 November 2024**
